Independent Auditor's Report

To the Board of Directors of Stk'emlupsemc Enterprises Inc.

We have audited the accompanying non-consolidated financial statements of Stk'emlupsemc Enterprises Inc., which comprise the non-consolidated statement of financial position as at March 31, 2015, and the non-consolidated statements of comprehensive income and changes in equity, and non-consolidated statement of cash flows for the year then ended and other explanatory information.

Management's Responsibility for the Non-Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these non-consolidated financial statements in accordance with International Financial Reporting Standards ("IFRS"), and for such internal control as management determines is necessary to enable the preparation of non-consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these non-consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the non-consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the non-consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the non-consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation of the non-consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the presentation of the non-consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, these non-consolidated financial statements present fairly, in all material respects, the financial position of Stk'emlupsemc Enterprises Inc. as at March 31, 2015, and the results of its operations and its cash flows for the year then ended accordance with IFRS.

Stk'emlupsemc Enterprises Inc. Notes to Non-consolidated Financial Statements

March 31, 2015

1. Nature of Operations and Summary of Significant Accounting Policies

Reporting Entity

Stk'emlupsemc Enterprises Ltd. (the "Company") was incorporated under the laws of the Province of British Columbia on June 25, 2008. The Company's primary function is to recover the costs of maintaining the natural resource rights within the traditional territory of the Stk'emlupsemc. The address of the Company's registered office is PO Box 188, Savona, British Columbia, V0K 2J0.

The Company is jointly owned by the Skeetchestn Indian Band ("SIB") and Tk'emlups Te Secwepemc ("TTS") with each entity owning 50% of the issued share capital.

These financial statements have been authorized for issue by the Board of Directors on July 2, 2015.

Basis of Presentation

The financial statements have been prepared in accordance with the financial reporting framework required for Government Business Enterprises, as determined under Canadian public sector accounting standards, which is International Financial Reporting Standards ("IFRS").

The Company's functional and presentation currency is the Canadian dollar.

Basis of Measurement

The financial statements have been prepared on a historical cost basis.

Use of Estimates

The preparation of financial statements in accordance with IFRS requires management to make assumptions and estimates that have an effect on the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the year. Actual results could be different from those estimates. There are no estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

1. Nature of Operations and Summary of Significant Accounting Policies - continued

Revenue Recognition

Revenue from contribution agreements and management fees are recognized when the significant acts for the agreement or milestones have been completed, the amount is due and collectibility is reasonably assured.

Equipment

Equipment is initially recorded at cost and subsequently measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is recognized in net income and is provided on a declining-balance basis over the estimated useful life of the assets as follows:

Furniture and fixtures	20%
Vehicles	30%
Computer equipment	30%

Depreciation methods, useful lives and residual values are reviewed annually and adjusted if necessary.

Impairment of Non-Financial Assets

Non-financial assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount, which is the higher of value in use and fair value less costs to sell, the asset is written down accordingly.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the asset's cash generating unit, which is the lowest group of assets in which the asset belongs for which there are separately identifiable cash flows.

Impairment charges are included in net income, except to the extent they reverse gains previously recognized in other comprehensive income.

Income Taxes

The company follows the asset and liability method for account for income taxes. Under the asset and liability method, the changes in the net deferred tax asset or liability is to be included in income. Deferred tax assets and liabilities are measured using the substantively enacted tax rates expected to apply to taxable income in the years in which temporary differences are expected to be recovered or settled.

1. Nature of Operations and Summary of Significant Accounting Policies - continued

Cash

Cash includes cash on hand, operating deposits with financial institutions, and for the purpose of the statement of cash flows, bank overdrafts that are repayable on demand.

Investments

Investments in subsidiaries are accounted for at cost and include Stk'emlupsemc Amalgamated Ventures Inc., a 51% owned subsidiary.

Accounts Payable and Other Payables

Liabilities for trade creditors and other payables are classified as other financial liabilities and initially measured at fair value net of any transaction costs directly attributable to the issuance of the instrument and subsequently carried at amortized cost using the effective interest rate method.

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

Where discounting is used, the increase in the provision due to passage of time is recognized as a financial cost and included in interest expense.

Financial Assets

The company classifies its financial assets into the following categories, based on the purpose for which the asset was acquired. The company's accounting policy for each category is as follows:

Held-to-Maturity

This category is comprised of short term deposits and long term deposits. These assets are non-derivative financial assets with fixed or determinable payments and fixed maturities that the company's management has the positive intention and ability to hold to maturity. These assets are initially measured at fair value and are subsequently measured at amortized cost.

Financial Assets - continued

Loans and Receivables

This category is comprised of cash and accounts receivable. These assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise principally through the provision of goods and services to customers (trade), but also incorporate other types of contractual monetary asset. These assets are initially measured at fair value and are subsequently measured at amortized cost.

Financial Liabilities

The company classifies its financial liabilities as other financial liabilities. Other financial liabilities include accounts payable and accrued liabilities which are initially measured at fair value and are subsequently measured at amortized cost.

Lease Assets

Where substantially all of the risks and rewards incidental to ownership are not transferred to the Company (an "operating lease"), the total rentals payable under the lease are charged to the statement of comprehensive income on a straight-line basis over the lease term. The aggregate benefit of lease incentives is recognized as a reduction of the rental expense over the lease term on a straight-line basis.

Standards, Amendments and Interpretations Not Yet Effective

Certain new standards, amendments and interpretations have been published that are mandatory for the Company's accounting periods beginning on or after April 1, 2015 or later periods that the Company has decided not to early adopt.

- i) New standards, interpretations and amendments effective from April 1, 2015

The following standard has been applied in these financial statements:

- IAS 32 Financial Instruments: Presentation was amended to clarify the meaning of "currently has a legally enforceable right to set-off." The amendments also clarify the application of IAS 32 offsetting criteria to settlement systems such as central clearing house systems which apply gross settlement mechanisms that are not simultaneous. This new standard did not have an impact on the Company's financial reporting.

Standards, Amendments and Interpretations Not Yet Effective - continued

ii) New standards, interpretations and amendments not yet effective

The following new standards, amendments and interpretations which have not been applied in these financial statements, that will or may have an effect on the Company's future financial statements are:

- IFRS 9 Financial Instruments is part of the IASB's wider project to replace IAS 39 "Financial Instruments: Recognition and Measurement." IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets, amortized cost and fair value. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. The standard is effective for annual periods beginning on or after January 1, 2018. The Company is in the process of evaluating the impact of the new standard.

There are no other IFRSs or International Financial Reporting Interpretations Committee ("IFRIC") interpretations that are not yet effective that would be expected to have a material impact on the Company's future financial reporting.

Notes to Non-consolidated Financial Statements

March 31, 2015

8. Risk Management

The fair value of cash, accounts receivable, due from shareholders, and accounts payable and accrued liabilities is approximately equal to their carrying value due to their short term maturity date.

Liquidity Risk

The Company has financial liabilities outstanding, including accounts payable, accrued liabilities, amounts due to related party and a loan payable. The Company manages its liquidity risk by reviewing liquidity resources, ensuring cash flows from operations and holdings of cash and cash equivalents are sufficient to meet liabilities when they are due as well as ensuring adequate funds exist to support business strategies and operations growth. The risk has not changed from previous periods.

Credit Risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to accounts receivable that relate to contributions receivable from the contribution partners. Management believes such accounts receivable are subject to minimal credit risk. The risk has not changed from previous periods.
