

# Vote Charles Dumont for Council

Committed to the positive growth of our community.

- Continue on the path of self-governance in terms of developing our own Laws and By-Laws.
- Ensure that we promote and hire within our own membership. I.e. job shadowing, mentorship and succession planning.
- Building partnerships with businesses and employment organizations to build upon the skills of our community.
- Push forward the development of band businesses to create profits for the band and also create job opportunities for band members. I.e. tow truck services, grocery store, clothing store, farming, etc.
- Education and Employment Counsellors at the band office for band members to be able to develop their career and employment goals without having to be referred to other services. Provide assistance to band members to access training as soon as possible for employers that require immediate employment.
- To develop a variety of housing solutions that will meet the economic needs of our members.
- To engage the community to become more involved in the continued growth of our band i.e. by coming to band meetings and taking part in band committees.

**It is and always will be our duty to promote, conserve and practice our culture and traditions. To protect our land, to ensure a safe place for our children to grow and to care for our elders.**
