
ELECT

NACOMA GEORGE

Tk'emlups te Secwepemc Council

Weytk, Tk'emlups te Secwepemc!

My name is Nacoma George and I'm the Father to Foxx Alec, Husband to Crystal Adolph and the Son of John & Debbie George. I am hard working, honest and reliable! I am an active member of this community in various roles in my personal and professional life and I believe in this community and our people.

Over the past three years I have had the pleasure of coordinating and participating in community events as Marketing & Communications Coordinator for Tk'emlups te Secwepemc. I hope this experience has demonstrated my abilities and commitment to providing a positive direction for our people. I have been involved in community events, meetings, forums and conferences from hunting & fishing camps, canoe journeys to band meetings and press conferences. I have seen our community come together and celebrate for all occasions and reasons.

I am actively involved in the learning and practice of the traditional worldviews and lifestyles of the Tk'emlups te Secwepemc people including harvesting methods, communal boundaries of our traditional territory and protocols. I am confident my personal and professional experience combined with my passion and belief in our community will be of great use and benefit if elected as council for Tk'emlups te Secwepemc.

I would like to thank my family, friends and colleagues for supporting me in my pursuits; and the community for giving me this opportunity.

WHAT I STAND FOR

SOLUTIONS – COMMUNICATION - SUPPORT

I believe in our community & understand our membership drives who we are as Tk'emlups te Secwepemc people;

Providing clear & direct communication is necessary for understanding & support from membership, leaders and employees;

Decisions need to benefit the community as a whole & our future generations;

Leaders make responsible decisions on behalf of membership that benefit our economic, social, health, recreational & traditional well being.

Our youth and future leaders require support, mentorship and resources (including: people, places & opportunities) to grow;

Member-driven committees bring the voices of the people to the departments in providing support and allowing elected leaders to focus on TteS priorities brought forth by membership;

Continue support of past, present & future training/ employment and economic opportunities for our membership.

Utilizing technology to enhance & maintain an informed community through the use of the internet, social media and live streaming as deemed appropriate by the community.
