Now is an exceptionally important time for First Nations people. Our young people are the fastest growing population in Canada. We as the Tk'emlúps te Secwepemc are a driving force for economic and financial opportunities in our territory.

As a band, we will find ways to move forward together, respecting and utilizing individual strengths, while at the same time stand united in our assertion of our rights and responsibilities to our land, language, culture, families and our children.

To truly move forward together and for our people to thrive and prosper, each of us has a role to play. We must all be engaged; all voices must be heard and respected.

Say Yes!

- Community strength
- Accountability
- Equal opportunity
