

Leak Surveyor – Full Time – British Columbia

Are you a self-motivated individual with a love of the outdoors? Are you physically fit with an energetic personality? Do you work well with others and can work independently? We may have a job opportunity for you!

Hetek Solutions' purpose is "keeping people safe in the most worry-free way possible." This Motto has guided us through 65 years serving Canada's gas utilities, the midstream and upstream oil and gas sectors, water utilities and municipalities. The loyalty of our customers helped us become one of Canada's primary vendors for both products and services to these sectors. Join Canada's premiere pipeline leak inspection contractor and help us keep people and the environment safe in the most worry free way possible!

Hetek Solutions is seeking responsible and highly motivated individuals to conduct outdoor field surveying from January 31st to November 30th to work as part of a crew performing walking inspections of natural gas distribution systems throughout British Columbia.

Before commencing fieldwork, applicants must successfully complete our in-house training program with online and in-field instruction on Hetek's procedures using specialized gas detection and GPS instruments. Ideal candidates should relish the thought of walking up to 30 km a day through either rural, countryside or challenging terrains, spending time on the road with colleagues, keeping people safe, and working in a team environment with stringent quality standards.

ROLE AND RESPONSIBILITIES:

- Walking along natural gas pipelines, entering yards to inspect up to the gas meter, walking in rural areas occasionally through very rough terrain including creeks, streams, wooded areas, and various field types. All walking is during daylight hours. The job will also include various daily reporting duties which require data entry
- Participation in special surveys based on Hetek's customer's needs

PERSONAL PROTECTION EQUIPMENT (PPE) REQUIRED:

- Safety vest
- CSA Approved safety shoes (\$150 voucher to Marks provided)
- Company Hat (provided)
- Weather specific clothing (Pants, gloves, rain gear, etc.)

SUCCESSFUL APPLICANT REQUIREMENTS:

- Must be available for work from January 31st to November 30th 2022
- Must be available for full-time hours including weekends and overtime as required to complete work
- Willing to commit fully to travel and life on the road when required
- Enjoy working outdoors in various weather conditions
- Ability to work independently and with a team
- Physically fit and able to walk up to 30 km/day
- Ability to work alone in remote locations of various terrains
- Full Driver's License and 3-year drivers abstract
- NO EXPERIENCE NECESSARY

BENEFITS:

- All accommodations and meal allowance are provided while working away from home base
- A minimum of \$18/hr with potential to earn up to \$20/hr
- Paid training provided
- OPTIONAL - Mentorship program available under the direction of a licensed professional engineer (P.Eng) to co-op and summer students who are currently enrolled in engineering programs. Work experience or competencies gained may be used eventually in support towards one's professional designation licensure in the future.
- Gaining practical knowledge about natural gas utility systems, and technology used for the purposes of detecting natural gas, digital mapping, and data collection
- Learning about gas leak classification standards according to Canadian regulations
- Room for growth within the company and long-term work (full time)
- Use of a company vehicle

SPECIAL REQUIREMENTS:

- Proof of Vaccination will be required upon hiring.

HOW TO APPLY:

- All applicants are welcome to apply by emailing your resume to hetek.hr@hetek.com or by applying directly through our **Indeed** job ad.
