

Engineering Design Technician II #972

Closing Date: April 2, 2023

At the City of Kamloops, we believe in progressive and barrier-free recruitment for everybody every day. This means employment opportunities for all in a safe, inclusive and diverse workplace. We know our city is stronger when we hire qualified individuals from different backgrounds with diverse experiences, cultures and perspectives.

We are focused on creating the highest levels of service excellence, based on an organization-wide community culture that celebrates our employees who make it all happen. We are known as Canada's Tournament Capital and are famous for our hospitality and community spirit, traits that make us a leader! Recreation, sports, arts and culture, health care, social activities, volunteerism, and affordable housing all meld to form a unique blend of big-city amenities with small-town ambience. This is Kamloops!

Let's make Kamloops shine! Join our team today.

Position Overview

The City of Kamloops is looking for a Temporary, On-Call Engineering Design Technician II who is proficient in using AutoCAD and Autodesk Civil 3D design software. In this position you will complete complex municipal design and drafting projects. Your projects will revolve around designs such as roads/sidewalks/multi-use paths/roundabouts, water/sanitation mains and storm drainage featuring green infrastructure. This position provides detailed information on service locations to field crews and the public as well as produces and files record drawings. We are looking for a well-organized, motivated individual who has a high degree of visual and mental concentration.

If you are looking to join a diverse team of driven individuals and have a vision to make the City a better place, then a career in our Development, Engineering and Sustainability Department may be a great fit. The City of Kamloops has modified work schedules, opportunities for learning and advancement, and we emphasize on our employees health, well being and safety.

If you share in our corporate values of Resiliency, Purpose, Trust, Inclusivity, Health Conscious, and Cooperation, and are interested in contributing to the development of our community in a meaningful way, then apply to be our next Engineering Design Technician II.

The successful candidate must have the following qualifications:

1. Completion of a two-year Computer Aided Design and Drafting program OR a two-year Diploma in Civil Engineering.
2. Minimum three years' previous experience in municipal design using AutoCAD and Autodesk Civil 3D design software.
3. Ability to acquire certification as a Civil Technologist (AScT) or a Civil Technician (CTech) with the Applied Science Technologists and Technicians of British Columbia within 12 months.
4. Valid Class 5 BC Driver's Licence or equivalent.

For new hires, and for those working in designated positions of trust, including those working directly with vulnerable persons, no formal offer of employment will be made until an applicant completes a police information check. This position will receive 14% in lieu of all benefits, vacation, stat holidays, and health time.

Please note this position is posted along with the Engineering Design Technician I #970 and Engineering Design Technician II #971. Our preference is to hire an Engineering Design Technician II, however if there are no candidates deemed qualified on either posting, we will hire from this posting.

This is a temporary position until approximately September 29, 2023.
