JOB POSTING: Excavator Operator

Position Overview (Full-time)

Twin Valley Contracting needs an experienced Excavator Operator immediately. This full-time position will work in civil excavation and construction for commercial and industrial sectors. The ideal candidate is hardworking, reliable, approachable, and accountable. We are proud of our reputation that we meet our Client's needs, and this requires flexibility on behalf of our staff to ensure that we do a quality job, and we meet our deadlines.

Our Operators enjoy interesting, diverse work and exciting challenges. To meet our clients' needs, Operators are available for a variety of shifts and any day of the week required. We provide the labour required to do the job on time; this means we need our employees to be available as required by the Client.

Main Responsibilities:

- Operate multiple sizes of Excavators to move, load and grade earth, rock, gravel or other materials during construction and related activities
- Sound understanding of the issues involving ground disturbance and ability to work in and implement safe work practices and contribute to a safe work environment
- Observe safety rules and regulations at company and customer job sites and facilities, including identifying hazards on site
- Safely secure construction equipment, attachments, materials and other equipment
- Identify and report any required or preventative maintenance to supervisor
- Perform all appropriate pre- and post-equipment inspections
- Clean and lubricate equipment and refill equipment tanks
- Ensure proper paperwork & logs are maintained accurately

Qualifications:

- Strong experience operating heavy equipment in a safe and responsible manner
- Ability to read and interpret blue prints
- Attention to detail, critical thinking
- Effective communication skills – written and verbal
- Capable of labour work, when required

- Physically able to secure attachments as required
- Capable of lifting and controlling materials up to 50 lbs
- Valid class 5 drivers' license
- Reliable transportation for travel to multiple work locations (frequently outside of bus service)
- Basic experience working with hand tools
- Construction industry exposure / experience is an asset
- Required to supply and wear steel-toed work boots
- Reliability is paramount
- Proven record of safety compliance
- Willingness to learn, take initiative, and work as a part of the team
- Self-motivated with a strong work ethic
- Class 1 may be Preferred
- Preference may be given to experience pulling grade and sloping (with or without stakes)
- Preference may be given to experience running equipment in close proximity to underground sewer and gas lines and/or overhead wires and power lines

Additional Qualifications:

These preferred tickets may be considered an advantage:

- CSTS
- PSSP
- Fall Protection
- First Aid
- WHMIS
- H2S Alive
- Ground Disturbance
- Drug and alcohol clearance (recent)

Twin Valley Contracting values our reputation as an enjoyable and rewarding place to work. The successful candidate's suitability will include a proven record of contributing to a positive work environment.

How to Apply: send all resumes in confidence to Resumes@tvcltd.ca with "HEO" in the Subject line. Please include at least 3 supervisory references.
