JOB POSTING: Millwright

Position Overview (Full-time or Part-time)

Twin Valley Contracting is currently building a pool of applicants for the construction season, including Industrial Mechanic Millwrights. The ideal candidate is hardworking, reliable, approachable, and accountable. We are proud of our reputation that we meet our Client's needs, and this requires flexibility on behalf of our staff to ensure that we do a quality job, and we meet our deadlines.

- **For casual to full-time**, we are looking for Millwrights who enjoy an ever-changing role and exciting challenges. Millwrights are available for any day of the week, and any shift required. To meet our client's needs, we provide the labour required to do the job on time; this means we need our employees to be available as required by the Client.
- **For part-time**, we are building a pool of employees who are available on-call, part-time, or only on weekends. If you only wish to work part-time, or you are looking for weekend work to supplement your income, our Millwrights enjoy interesting, diverse, and challenging work.

Main Responsibilities:

- Read blueprints, diagrams and schematic drawings to determine work procedures
- Install, align, dismantle and move stationary industrial machinery and mechanical equipment such as pumps, fans, tanks, conveyors, furnaces and generators
- Operate hoisting and lifting equipment to position machinery and parts during the installation, set-up, and repair of machinery
- Inspect and examine machinery and equipment to detect and investigate irregularities and malfunctions
- Install, troubleshoot and maintain power transmission, vacuum, hydraulic and pneumatic systems
- Plan workload, identify complex variables, and solve problems.
- Adjust machinery, repair or replace defective parts
- Clean, lubricate, and perform other routine maintenance work on machinery
- Assemble machinery and equipment prior to installation using hand and power tools as well as welding equipment
- Loading and unloading heavy equipment or construction material to work site

Qualifications:

- Industrial Mechanic Millwright: Red Seal, BC Certified, and/or Apprentice
- Experience including: installing, maintaining, troubleshooting, overhauling, repairing, upgrading and fabricating machinery and equipment according to layout plans, blueprints, and other drawings in industrial establishments.
- Must be able to lift and carry parts and materials up to 50 lbs
- Reliable transportation for travel to multiple worksites (outside bus routes)
- Able to work at heights
- Millwright experience of 5 years or greater would be an asset
- Construction industry, mining, and/or sawmill exposure / experience of 5 years or greater is an asset
- Experience with use of Personal Protective Equipment (including fall arrest harness)
- Reliability is paramount

Competencies, Skills and Abilities:

- Proven record of safety compliance, rules, and regulations - especially when adjusting machinery or installing new equipment
- Quickly able to identify hazards and respond appropriately
- Self-motivated with a strong work ethic
- Strong communication skills, both written and oral
- Excellent hand-eye coordination and agility
- Ability to work in extreme outdoor weather conditions
- Strong mechanical aptitude with strong trouble-shooting skills
- Capable of working well both independently and as part of a team
- Work within precise limits or standards of accuracy.
- Follow instructions and read blueprints.
- Make decisions based on measurable information.

Additional Qualifications:

These preferred experience and tickets may be considered an advantage:

- Confined Space
- Fall Arrest
- Aerial Lifts/Platform
- Spark-watch training & experience
- Rigging & Hoisting

[Type here]

- Forklift / Boom
- Overhead Crane
- H2S Alive
- First Aid
